After receipt of the application the IO/ departmental coordinator will nominate you at the host institution. This is in March/April for students who wish to study abroad in the winter semester, and April or later for students who wish to apply for a remaining exchange place in the summer semester. The IO and/or Departmental Coordinator are aware of the fact, that at some partner universities the nomination is only possible at a later date.
- Application to host institution successful and a positive answer from the host institution received?**
After nomination through IO or the departmental coordinator, you should receive information from the host institution about further steps in the application process. For most partner universities this information can also be found online. Just to be sure, run a search on the host institution’s homepage for “Erasmus“ or “application for exchange students“ for information about the application process or language requirements for Erasmus incoming students. Then send or submit the requested application. The time between the submitted application and a decision from the partner school may take a few weeks. For further questions regarding your application, please contact the IO of your host institution.
- If applicable, apply for additional funding for students with fewer opportunities and green mobility**
