Counselling Services

Programme Manager:
Prof. Dr. Christoph Böhringer

Dear students of the M.Sc. A&D,

the University of Oldenburg offers central counselling services, such as the Academic Examinations Office, the Admissions Office, or the Study and Career Counselling Service (ZSKB). In addition, you will also benefit from specialist services at our Department of Business Administration, Economics and Law (Dep. WiRe) that will support you concerning subject-specific issues.

In each study programme there are counselling services for e. g.

- study planning
- international studies
- internships

as well as student interest and representation groups (Student Council FSR WiRe).

An important point of contact for planning your course of studies is our Academic Counselling. Our academic advisors will, for example, consult with you on your choice of elective and specialization modules and provide guidance for your final thesis.

The contact persons for your study programme are listed on this flyer as well as on the website of the Academic Counselling of the Department for Business Administration, Economics and Law (FSB WiRe).

You can find most of the information about your studies on the websites mentioned on this leaflet. We would advise that you view the information available before you make use of personal consultation.

A first central point of contact for all study-related matters is the Student Service Center (SSC), where you will find the university's Study and Career Counselling Service (ZSKB), the InfoLine as well as the InfoDesk.
