You should aim to study 30 +/- 3 credit points per semester. 1 CP equals 30 hours of work including preparation outside class.

¹ This module part can be taken during the 1st and/or 2nd semester.

² For module psy201 part 1 is mandatory; choose between part 2 and 3.

³ This module part is (partly) taught in German. Accompanying English material will be available.

⁴ This module part can be taken during the 1st or 3rd semester.

⁵ Module psy270 is blocked over 7 weeks in the first half of the term.

⁶ The internship lasts 360h and can be performed any time that fits your study plan. You may split the internship.

When planning your internship dates, please consider that exams always take place in the two weeks after the lecture periods end.

⁷ Module psy141 can be studied in any semester. You will chose Master classes of your interest outside or inside the Department of Psychology. Find details in the module description.

⁸ For the Research Master Neurocognitive Psychology we recommend performing research internships abroad.

If you want to study abroad, please contact the programme coordinator as early as possible to discuss your individual study plan.
