Preface:

Alternative Modelle des Universums – Die Weltsicht von Kindern aus Ostasien und Europa

Vorwort von Falk Rieß und Ulrich Kattmann _____ 10

1	Introduction	13
1.1	Background	13
1.2	Framework and features of the study	20
1.3	Purposes of the study	22
1.4	Research Questions	22
1.5	Contents of the thesis	23
1.6	Terminology	24
2	Towards History-oriented Science Instruction	26
2.1	History of science and students' conceptual development	26
2.1.1	Genetic epistemology	26
2.1.2	Children's theories	29
2.1.3	Explanatory coherence	30
2.2	History of science in science education	32
2.2.1	Arguments for history-oriented science instruction	33
2.2.2	History-oriented instruction in practice	43
3	Observational Astronomy in History	49
3.1	Main features of the early Chinese and Greek astronomy	50
3.2	Conceptions of the universe in early China	51
3.3	"Sphere making" in the Greek <i>antiquity</i>	53
4	Investigation of Students' Alternative Ideas	68
4.1	Literature review	68
4.1.1	Students' alternative conceptions and their development	69
4.1.2	Students' alternative conceptions in elementary astronomy	70
4.1.3	Implications to instruction	72
4.2	Methodological issues	73
4.2.1	Subjects	74
4.2.2	Interviews	74
4.2.3	Questions	75
4.2.4	Analysis	78

5	Students' Models of "The Heavens and the Earth"	79
5.1	Students' alternative concepts	79
5.1.1	Concepts about the earth	79
5.1.2	Concepts about gravity	84
5.1.3	Concepts about heavenly bodies	85
5.1.4	Concepts about the sun/moon/earth system	86
5.2	Seven models with earth-centred or sun-centred view	87
5.2.1	Consistency	92
5.2.2	Explanatory power	92
5.2.3	Flexibility	97
5.2.4	Cultural aspect of the results	97
5.3	Case study	100
5.3.1	Yi-Lin (Model 1(a): Static heavens with spinning earth and absolute direction)	103
5.3.2	Ping (Model 1(b): Static heavens with spinning earth)	108
5.3.3	Yu-Ting (Model 2(a): Cone heavens with vertical orbits)	111
5.3.4	Mei (Model 2(b): Cone heavens with horizontal orbits)	113
5.3.5	Maja (Model 3(a): Earth-orbiting heavens with absolute direction)	116
5.3.6	Chung (Model 3(b): Earth-orbiting heavens)	118
5.3.7	Pei-Shan (Model 4: Orbiting heavens- earth and moon with common focal point)	120
5.3.8	Björn (Model 5: Static sun with orbiting earth)	124
5.3.9	Michael (Model 6: Static sun with orbiting earth and moon)	126
5.3.10	Beate (Model 7: Present-day model with static sun)	129
6	Historical Models of "the Heavens and the Earth"	134
6.1	Three early Chinese models	134
6.1.1	The Gai Tian (蓋天) Model (Hemispherical Dome)	135
6.1.2	The Hun Tian (渾天) Model (Celestial Sphere)	137
6.1.3	The Shuen Ye (宣夜) Model (Infinity)	139
6.2	The spherical models in the Western world	141
6.2.1	Ptolemaic earth-centred model of the universe	141
6.2.2	Copernican sun-centred model of the universe	144
6.2.3	Ptolemaic vs. Copernican system	149

7 Discussion	153
References	167
Appendix 1: Text for interviews (English version)	174
Appendix 2: Text for interviews (German version)	176
Appendix 3: Text for interviews (Chinese version)	178
Appendix 4: Pictures of earth models used in the interview	181
Appendix 5: Examples of interview transcripts	185
Aknowledgement	218
