Data collected and purposes pursued with the data processing

Users can take photos and store them in the app as a profile picture, as well as project them onto posted posters via augmented reality. For this, the app requires access permission to the camera and the internal memory.

Legal basis of the data processing

The legal basis is the consent of the user, Art. 6 para. 1 lit. a DSGVO. Users are not obliged to provide the profile picture. No disadvantages arise from the non-provision.

Recipients of personal data

No personal data will be passed on to third parties.

Duration of retention or storage of personal data

The deletion of taken profile pictures takes place when the app is uninstalled or the user deletes the taken profile picture him/herself. When a new profile photo is taken, the previously taken profile photo is overwritten.

Rights as a data subject

The rights of the data subject cannot be guaranteed by the responsible entity, as the responsible entity does not process the collected personal data itself. Users can revoke their consent for the future at any time. However, this can only be done by the users themselves under app settings on their own smartphone.

Right to complain to a supervisory authority

Users have the right to complain to a supervisory authority. The supervisory authority responsible for the Carl von Ossietzky University is: Die Landesbeauftragte für den Datenschutz in Niedersachsen, Prinzenstraße 5, 30159 Hannover.
