

Course announcement

" Career insights online - of ICBM Alumni"

for young researchers of the IRTG of the CRC Roseobacter, EcoMol and of the PhD programme Environmental Sciences and Biodiversity and of cooperating graduate schools.

with:

Dr. Hanna Manßen

is editor and project manager for the **Thieme Group in Stuttgart**, Germany. She studied Biology, Chemistry and Physics at the University of Oldenburg and worked as PhD at the ICBM in the group "General and Molecular Microbiology" of Prof. Rabus for the SFB *Roseobacter*.

Date & Time: June 19th, 2020 at 14:00 – 15:30

Format: online meeting via BigBlueButton

Language: English

Registration: ferdinand.esser@uni-oldenburg.de

Participants: maximum of 25

Module: olt161 Transferable Skills / Scientific career / olt165 Additional Module "Transferable Skills"

Credit Points: 0,5

Target group: Early career scientists who are interested in broadening their horizon and getting new ideas for their own career development.

The new format "*Career insights online*" aims at introducing different job perspectives in marine science in the widest sense and offers the possibility to get in touch with former members of the Marine Graduate Schools in Oldenburg, Bremen and Bremerhaven. It focusses on career paths outside of academia and will give insights into their job fields in for example industry, administration, consulting and journalism. Speakers are asked to talk about their current position, their interdisciplinary skills and about the career steps. Afterwards you will have the opportunity to ask questions to the speaker.
