

## Research Group **neurology**

- Name: **Karsten Witt**
- Main research areas: **cognitive neurology, movement disorders, deep brain stimulation**
- Interested in: **brain plasticity, cognitive aspects of subcortical structures (basal ganglia, thalamus, cerebellum), dementia**
- Expertise: **clinical neurology, neuropsychology, neuromodulation, movement disorders**
- looking for expertise in: **computational neuroscience**
- E-Mail: **karsten.witt@uni-oldenburg.de**

## Research Group **Neurogenetics**

- Name: Prof. Hans Gerd Nothwang
- Main research areas: auditory system, deafness, development
- Interested in: gene regulatory networks, mouse and chicken genetics,

K<sup>+</sup>-cycling inner ear, synaptic inhibition

- Expertise: molecular biology, molecular genetics, gene expression, cloning
- looking for expertise in: bioinformatics, miRNA, epigenetics
- E-Mail: [hans.g.nothwang@uol.de](mailto:hans.g.nothwang@uol.de)
