

# PRESS RELEASE

9 February 2017 044/17

## University leaders welcome international researchers

**Oldenburg.** Regularly organised by the International Relations Office (IRO), a reception provides international scholars at the University of Oldenburg with the opportunity to make personal contacts, networking beyond their own academic disciplines. Vice President for Graduate Education and International Affairs, Professor Esther Ruigendijk, and IRO Director Birgit Bruns welcomed around 40 academics with their respective host researchers. The international scholars are from Australia, Brazil, Canada, China, Croatia, India, Indonesia, Italy, Jordan, Malaysia, the Netherlands, Palestine, Russia, Spain, Syria and the United States of America. Their stay in Oldenburg will last anything between two months to three years. Six faculties currently host around 100 academics from around the world.
