

Checklist Student Research Project Funding

Please ensure that your application for funding for a student research project includes the following elements:

1. The short description (max. 4,500 characters with spaces and paragraphs), stating the following:
 - The research question to be addressed is presented.
 - The planned research methods are described.
 - If the application is for the summer semester, reference is made to the topic of the call.
 - The proposed project is presented in an understandable way and explained in a way that can be understood by people outside the field.
2. The application contains no more than one image file, which is attached as a separate file.
3. References, if available, are attached to the application in a separate file.
4. The application form has been filled out completely.
5. A confirmation from the supervising teacher is available (either as an e-mail or as a separate signed letter, see template).
