

Family Name	First Name	Nationality	Specialisation	Project-Title	Host Institution
Gulisi	Alican	Turkey	Solar Thermal	Development and Calibration of a Simulation Tool for SunOyster Systems	SunOyster Systems GmbH, Halstenbeck
Palau	Anna	Spain	RE Grid Integration	Resilience of the electrical CIGRE benchmark model at medium voltage and low voltage	Research Institute in Catalonia (IREC), Barcelona
Satpathy	Apoorva	India	Photovoltaics	Analysis of national policies for solar water pumps (SWP) in terms of promoting women empowerment. A contrastive empirical study of SWP projects in Nepal and India.	International Renewable Energy Agency (IRENA), Abu Dhabi, UAE
Leroy	Arnaud	France	RE Grid Integration	Modeling and optimization of multi-regional RE Grid Integration renewable energy mixes at a European scale	EURAC research – Institute for Renewable Energy, Bolzano, Italy
BORIES	Benjamin	France	Wind Energy	Procedure of wind farms performance evaluation, comparison to long term expectation and uncertainties evaluation	Vattenfall, Hamburg
Corbett	Darcy	Australia	Solar Thermal	Object-Oriented Modelling of the PROTEAS Research Facility	The Cyprus Institute, Cyprus
Calderon del Rivero	Eduardo	Mexico	Photovoltaics	Quantitative and Qualitative Electroluminescence Analysis in Si PV Panels with different cameras	ZAE Bayern - Bayerisches Zentrum für Angewandte EnerRE Grid Integrationeforschung e. V., Erlangen
Akhtarirad	Fatemeh	Iran	Wind Energy	Production-Based Availability approach in operational time of a wind turbine, focusing on service activities	Nordex SE, Hamburg
Torres	Francisco	Chile	Solar Thermal	Study of Innovative Solutions for Parabolic Trough Collector Design	Fraunhofer ISE, Freiburg
Kumar	Mahesh	India	Wind Energy	Impact of Sea Ice Loads on Global Dynamics of Offshore Wind Turbines	Fraunhofer IWES, Bremerhaven
Tabbakh	Mohammed	Syria	Wind Energy	Sensitivity evaluation of the implementation of different Rotor Equivalent Wind Speed methodologies for wind resource assessment based on different measurements campaign setups and virtual rotor disks in the presence of wind shear and veer flow characteristics	Access Power, Dubai

Joshi	Neeraj	India	Photovoltaic	Development of a methodology to assess the lifespan of standalone PV systems	RE Grid Integrationz/EnDev, Eschborn
Vasilenko	Polina	Russia	Ocean Energy	The site assessment of wave energy converter in the Asian market	Wello Oy, Finland
Veronezi Figueiredo	Roberta	Italy	Sustainable Fuel Systems for Mobility	Design of a small scale biogas production unit focusing on H ₂ S separation from biogas	The Netherlands Organisation for Applied Scientific Research (TNO), Delft
Bessekon	Yenon Yannick	Ivory Coast	Sustainable Fuel Systems for Mobility	SOFC/battery powered electrical vehicle	DTU Roskilde, Denmark
